#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**2.1 Summary of significant accounting policies**

**(i) Use of estimates**

The preparation of standalone financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Examples of such estimates include relative fair value of goods and services, provisions of future obligation under employee retirement benefit plans, estimated useful life of fixed assets, provision for doubtful debts and loans and advances and provision for income-tax. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

The Company believes that the estimates and assumptions used in preparation of standalone financial statements are reasonable and are based upon management's best knowledge of current events and actions, as of the date of approval of financial statements, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the Company's standalone financial statements. There are no assumptions and estimation uncertainties including expected future useful lives of assets and intangibles, that are at a significant risk of being adversely impacted resulting in a material adjustment in the future periods.

Additions during the year are depreciated on pro rata basis from the date of addition.

The useful life of asset as specified in Schedule II of Companies Act, 2013 considered are as under:

|                        |          |
|------------------------|----------|
| Computers              | 3 years  |
| Office equipment       | 5 years  |
| Furniture and fixtures | 10 years |
| Vehicles (motorcycle)  | 10 years |

Leasehold improvements are amortised over the period of lease term or useful life, whichever is lower

**(iv) Intangible assets and amortisation**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

**Software and Development cost**

Certain direct development costs associated with internally developed software and software enhancements of the company's technology platform are capitalized. Capitalized costs, which occur post determination by management of technical feasibility, include external services and internal payroll costs. These costs are recorded as intangible assets when development is complete and the asset is ready for use. Development activities involve a plan or design for the production of new or substantially improved products and processes. Development expenditure is capitalized only if development costs can be measured. Research and pre-feasibility development costs, as well as maintenance and training costs, are expensed as incurred. In certain circumstances, management may determine that previously developed software and its related expense no longer meets management's definition of feasible, which could then result in the impairment of such asset. Incidental operations are not necessary to bring an asset to the condition necessary for it to be capable of operating in the manner intended by management, the income and related expenses of incidental operations are recognized immediately in profit or loss, and included in their respective classifications of income and expense.

The useful lives of intangible assets are assessed as either finite or indefinite.

The estimated useful life and amortization method are reviewed at the end of each reporting period.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised as income or expense in the standalone statement of profit or loss.

**(v) Leases**

Assets acquired under leases other than finance leases are classified as operating leases. The total lease rentals (including scheduled rental increases) in respect of an asset taken on operating lease are charged to the Standalone Statement of Profit and Loss on a straight line basis over the lease term unless another systematic basis is more representative of the time pattern of the benefit. Initial direct costs incurred specifically for an operating lease are deferred and charged to the Standalone Statement of Profit and Loss over the lease term.

**(vi) Impairment of assets**

The carrying values of assets are reviewed at each reporting date to determine if there is indication of any impairment. If any indication exists, the assets recoverable amount is estimated. For assets that are not yet available for use, the recoverable amount is estimated at each reporting date. An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Standalone Statement of Profit and Loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss has been recognised.

**(vii) Investment**

Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long-term investments. However, that part of long-term investments which is expected to be realised within 12 months after the reporting date is also presented under "Current assets" as "Current portion of long term investments" in consonance with the current/ non-current classification scheme of schedule III of the Act.

Long-term investments (including current portion thereof) are carried at cost less any other-than-temporary diminution in value, determined separately for each individual investment.

Current investments are carried at lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investments.

**(viii) Foreign currency translation**

Transactions in foreign currency are recorded at the rate of exchange prevailing on the date of the respective transactions. Gain/ loss arising on settlement/ realization of foreign currency transactions of monetary items are recognised in the Standalone Statement of Profit and Loss.

Monetary assets and liabilities denominated in foreign currencies and remaining unsettled as at the balance sheet date are translated using the closing exchange rates on that date. Gain/ loss on translation of foreign currency monetary assets and liabilities are recognised in the Standalone Statement of Profit and Loss.

**(ix) Retirement and other employee benefits**

***Short term benefits***

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc. are recognized in the Standalone Statement of Profit and Loss in the period in which the employee renders the related service.

***Post-employment benefit***

**• *Defined contribution plan***

The defined contribution plan is a post-employment benefit plan under which an entity pays specified a contribution to a separate entity and has no obligation to pay any further amounts. The Company makes specified monthly contributions towards employee provident fund to Government administered provident fund scheme which is a defined contribution plan. The Company's contribution to defined contribution plans is recognised in the Standalone Statement of Profit and Loss during the period in which the employee renders related service.

**• *Defined benefit plan***

The Company's gratuity plan which is unfunded is a defined benefit plan. The present value of gratuity obligation under such defined benefit plans is determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the Standalone Statement of Profit and Loss. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

**(x) Employee share-based payments**

***Employee Stock Option Plan of Brokentusk Technologies Private Limited ("Setu")***

Employees of the Company receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments (equity-settlement transactions) of the Company.

In accordance with the Guidance Note on Accounting for Employee share-based payments, the cost of equity-settled transaction is measured using the fair value method and recognized, together with a corresponding increase in "Employee Stock option outstanding account" in reserves. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the company's best estimate of the number of equity instruments that will ultimately vest.

The expense or credit recognized in the Standalone Statement of Profit and Loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

***Employee Stock Option Plan of Pine Labs Limited (Holding Company)***

The employees of the Company have been granted stock options by Pine Labs Limited, the Parent Company after acquisition of the Company in previous year.

The Company calculated the employee share-based payments expense based on fair value method in accordance with the Guidance note on "Accounting for Employee Share Based Payments" issued by the Institute of Chartered Accountant of India. The Guidance Note applied to grant of stock options of the Parent Company, to the employees of the company.

ESOP Plan of the Parent Company qualifies as an equity settled share based payment transaction. The fair value of shares awarded is recognized as an expense with a corresponding increase in liability towards Parent Company in line with the Cross Charge agreement among the two. The fair value is measured at the date of grant and spread over the period during which the employees become entitled to the shares (vesting period). The amount recognised as an expense is adjusted for the actual forfeitures due to participants' resignation before the vesting date.

**(xi) Taxation**

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax laws) and deferred tax charge or credit (reflecting the tax effects of timing difference between accounting income and taxable income for the year).

The deferred tax charge or credit and the corresponding deferred tax liability and/or deferred tax asset is recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realized in future. However, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each Balance Sheet date and are written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

**(xii) Earnings per share**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period. The weighted average number of equity shares is adjusted for events such as bonus issue and shares split that have changed the number of equity shares outstanding without a corresponding change in resources.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares are adjusted for the effects of all dilutive potential equity shares.

**(xiii) Provisions and contingencies**

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

The Company does not recognise assets which are of contingent nature until there is virtual certainty of realisability of such assets. However, subsequently, if it becomes virtually certain that an inflow of economic benefits will arise, asset and related income is recognised in the standalone financial statements of the period in which the change occurs.

**(xiv) Revenue**

Revenue from rendering of services is recognised (net of taxes) as and when the customer receives the benefit of the Company's performance of services and no significant uncertainty exists as per the terms of customer contracts regarding the amount of the consideration that will be received from rendering the service.

Unbilled revenue represents value of services performed in accordance with the contract terms but not billed and are part of trade receivables.

Revenue from services is recognized when the risk and reward of services is transferred as per the terms of the agreement with customer i.e. as and when services are rendered. Revenues are disclosed net of the Goods and Service tax charged on such services. In terms of the contract, excess of revenue over the billed at the year-end is carried in the balance sheet as unbilled revenue under trade receivables where the amount is recoverable from the customer without any future performance obligation. Cash received before the services are delivered is recognized as deferred revenue.

For the purpose of revenue recognition, the Company determines whether revenue should be recognized on a gross or net basis, which depends on which party controls the good or service before it is transferred to the customer, and whether the Company is acting as a principal or an agent to the transaction. Principal versus Agent Considerations, which states that the determination of whether a Company should recognize revenue based on the gross amount billed to a client or the net amount retained is a matter of judgment that depends on the facts and circumstances of the arrangement. The determination of gross versus net recognition of revenue requires judgment that depends on whether the Company controls the good or service before it is transferred to the merchant, whether the Company is acting as an agent of a third party and whether the Company is primary obligor to provide the services. The assessment is performed separately for each type of services provided by the Company.

The Company earns significant revenue from providing API infrastructure services for transaction processing of "Bharat Bill Payment Services and UPI services" to customers. Revenue from such services are recognized net of amount paid to banking partners/suppliers, since the Company is acting only as an agent in respect of these charges as the Company is not primarily responsible for providing such services performed by banking partners/suppliers but, only arrange for these services to the customers. For remaining services, the Company recognizes revenue majorly on Gross basis.

**(xv) Other income**

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other Income" in the standalone Statement of Profit and Loss.

**(xvi) Cash and cash equivalents**

Cash and Cash Equivalents in the standalone Balance Sheet comprise cash at bank and in hand and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.
